

## RFP: Researcher – Consultant Benchmark the Canadian engineering accreditation system

*Last updated September 21, 2021*

### Bidder Questions

**Q: Does the maximum budget of \$25,000 mean \$25,000 including HST?**

A: No – this would be excluding HST.

**Q: Will all meetings and presentations be online, or do we account for travel in the \$25,000? If some meetings or presentations are in person, which ones?**

A: We expect all activities to be virtual/online. If travel is required, Engineers Canada will pay it as an extra.

**Q: Does the Benchmarking Task Force or Engineers Canada have documents on any prior benchmarking exercise or criteria for comparisons that are available at this stage in the process?**

A: We do not have criteria established yet, and we only have one previous benchmarking which compares the existence of input and output requirements of the signatories to the [Washington Accord](#).
