Multi-Year Accessibility Plan

2023-2026

Revised: July 8, 2024
Multi-Year Accessibility Plan

Introduction

Engineers Canada’s Multi-Year Accessibility Plan outlines the policies, procedures and plans it has in place currently and is in the process of developing and/or implementing responses to the requirements established by the Integrated Accessibility Standards Regulation Act (IASR) in 2005. The act applies to all public and private sector organizations in Ontario. The Accessibility for Ontarians with Disabilities Act (AODA) 2005 was established to identify, remove, and prevent barriers for people with disabilities.

Statement of Commitment

Engineers Canada is committed to creating an accessible and inclusive environment for people with disabilities, in accordance with the Accessibility for Ontarians with Disabilities Act (AODA). Reasonable efforts will be made to ensure our policies, procedures and practices are consistent with the principles of accessibility and are inclusive. Ongoing efforts will be made at improving access to facilities, policies, programs, practices and services for staff, volunteers and members of the public. The purpose of the plan is to outline the steps Engineers Canada will take to identify and remove, and prevent barriers to accessibility, and to ensure that it complies with all accessibility standards under the AODA.

Definitions

Accessibility - A concept integral to human rights that refers to the absence of barriers that prevent individuals and/or groups from fully participating in all social, economic, political, and cultural aspects of society. The term is often linked to people with disabilities and their rights to access, and also refers to design characteristics of products, devices, information, services, facilities or public spaces that enable independent use, or support when required, and access by people with a variety of disabilities.

Accessible - Refers to products, devices, information, services, facilities, or public spaces that provide for independent, equitable, and dignified access for people with disabilities, including but not limited to those with visual, auditory, sensory, cognitive and mobility related disabilities. The concept of accessible design ensures both “direct access” (i.e., unassisted) and “indirect access,” referring to compatibility with a person’s assistive technology.

Accessible Formats - Refers to formats that are usable by persons with disabilities including but not limited to: large print, recorded audio and electronic formats, and braille.

Accommodation - Means preventing and removing barriers caused by attitudinal, systemic, physical, information or communications, and technology barriers that unfairly exclude individuals or groups protected by Ontario’s Human Rights Code from having equal access to full benefits available to others. Principles of accommodation include dignity, individualization and inclusion or integration.
**Assistive Device** - A technical aid, communication device or other instrument that is used to maintain or improve the functional abilities of people with disabilities. Personal assistive devices are typically devices that members and guests bring with them such as a wheelchair, walker or a personal oxygen tank that might assist in hearing, seeing, communicating, moving, breathing, remembering, and/or reading.

**Barrier** - Anything that prevents a person with a disability from fully participating in all aspects of society because of his/her disability. This includes:
- a physical barrier
- an architectural barrier
- an informational or communications barrier
- an attitudinal barrier
- a policy, practice and procedure barrier

**Communications** - Interaction between two or more persons or entities, or any combination of them, where information is provided, sent or received.

**Communication Support** - May include, but is not limited to, captioning, alternative, and augmentative communication supports, plain language, sign language and other supports that facilitate effective communications.

**Disability** - Any degree of physical disability, infirmity, malformation or disfigurement including, but not limited to:
- Diabetes mellitus;
- Epilepsy;
- A brain injury;
- Any degree of paralysis
- Amputation;
- Lack of physical coordination;
- Blindness or visual impediment;
- Deafness or hearing impediment;
- Muteness or speech impediment; or
- Physical reliance of a guide dog or other animal, or on a wheelchair or other remedial appliance or device
- A condition of mental impairment or a developmental disability
- A learning disability or a dysfunction in one or more of the processes involved in understanding or using symbols or spoken language
- A mental disorder

The definition includes disabilities of different severity, visible as well as non-visible disabilities, and disabilities the effects of which may come and go.

**Information** - Includes data, facts and knowledge that exists in any format, including text, audio, digital or images, and that conveys meaning.
Guide Dog - A highly trained working dog that has been trained at one of the special facilities to provide mobility, safety and increased independence for people who are blind.

Service Animal - An animal for a person with disability. It is any animal used by a person with a disability for reasons relating to the disability; or where the person provides a letter from a physician confirming that they require the animal for reasons relating to their disability; or where the person provides a valid identification, card signed by the Attorney General of Canada or a certificate of training from a recognized guide dog or service animal training school.

Support Person - A support person means, in relation to a person with a disability, another person who accompanies them in order to help with communication, mobility, personal care, medical needs or access to goods and services.

**Completed**
| Accessible formats and communication supports for employees | Every employer shall consult with the employee to provide or arrange for the provision of accessible formats and communication supports for,  
(a) information that is needed in order to perform the employee’s job; and  
(b) information that is generally available to employees in the workplace. O. Reg. 191/11, s. 26 (1).  
(2) The employer shall consult with the employee making the request in determining the suitability of an accessible format or communication support. | 26 | **26**  
• Engineers Canada’s employment practices are accessible to meet the needs of employees with disabilities.  
• Engineers Canada’s HR team will support managers to determine and facilitate the suitable accommodations for staff with disabilities. This includes:  
  o Information needed for the staff to perform their job including suitable accessible formats and/or communication supports.  
  o General Information available to staff at the workplace. |
| **Workplace emergency response information** | Every employer shall provide individualized workplace emergency response information to employees who have a disability, if the disability is such that the individualized information is necessary and the employer is aware of the need for accommodation due to the employee’s disability. If an employee who receives individualized workplace emergency response information requires assistance and with the employee’s consent, the employer shall provide the workplace emergency response information to the person designated by the employer to provide assistance to the employee. Employers shall provide the information required under this section as soon as practicable after the employer becomes aware of the need for accommodation due to the employee’s disability. Every employer shall review the individualized workplace emergency response information, (a) when the employee moves to a different location in the organization; | 27 | • Engineers Canada has developed an Employee Workplace Emergency Response Plan in an accessible format, to create individualized emergency plans to assist staff with disability during an emergency. This form helps to:  
  - Obtain consent from staff with individualized plans to disclose their emergency response or evacuations plans to the person responsible for assisting them situations where the plan requires the assistance from a colleague/colleagues.  
  - Engineers Canada will provide an Emergency Evacuation Procedure Information sheet in an accessible format to staff to determine potential employee response barriers in order to make suitable arrangements during an emergency.  
  - Company will review individualized plans/information:  
    - When a staff needs an Emergency Evacuation Plan, a plan will be provided.  
    - When general emergency policies need to be | Completed | April 30, 2023 |
(b) when the employee’s overall accommodations needs or plans are reviewed; and
(c) when the employer reviews its general emergency response policies.

| Documented individual accommodation plans | Employers shall develop and have in place a written process for the development of documented individual accommodation plans for employees with disabilities that include all of the elements prescribed by Subsections 28(2) and 28(3) of the Regulation. | 28 | • Engineers Canada’s HR Team asks staff to fill a medical certificate (found in HR-7 Short-Term Disability Policy) to understand their accommodation requirements. This includes identifying the physical restrictions and functional limitations for the employee to perform the job. | Completed |

| Return to work process | Employers shall develop and have in place a documented return to work process for its employees who have been absent from work due to a disability and require disability-related accommodations in order to return to work; and The return to work process shall, (a) outline the steps the employer will take to facilitate the return to work of employees who were absent because their disability required them to be away from work; and (b) use documented individual accommodation plans, as described in section 28, as part of the process. | 29 | • Engineers Canada’s HR Team works with the employees who are absent due to a disability to understand their accommodation needs when they want to return to work, HR-17 Disability Accommodation Policy • The HR Team will work with the staff’s manager to prepare an individualized accommodation plan outlining the start and the end date of the accommodation, the type of accommodation and accessibility related support required. | Completed | Ongoing | October 2023 |
| Performance management | An employer that uses performance management in respect of its employees shall take into account the accessibility needs of employees with disabilities, as well as individual accommodation plans, when using its performance management process in respect of employees with disabilities. | 30 | - Engineers Canada ensures that the accessibility needs of staff with disabilities and accommodation plans are considered and implemented during a performance management process.  
- The HR Team will provide the performance management form in an accessible format to staff, as and when they require accommodation. | Ongoing |
| Career development and advancement | An employer that provides career development and advancement to its employees shall take into account the accessibility needs of its employees with disabilities as well as any individual accommodation plans, when providing career development and advancement to its employees with disabilities. | 31 | - Engineers Canada HR Team will work with managers to ensure that staff’s career development and career progression opportunities are inclusive and barrier-free and ensure that accommodation requests are considered and implemented for staff with disabilities. | Ongoing |
| Redeployment | An employer that uses redeployment shall take into account the accessibility needs of its employees with disabilities, as well as individual accommodation plans, when redeploying employees with disabilities. | 32 | - Engineers Canada HR Team will work with manager’s to ensure that the accommodation requests are considered and implemented for staff with disabilities when they need to be re-deployed. | Ongoing |

**Conclusion**

Engineers Canada is committed to promoting accessibility and inclusiveness for people with disabilities, and this multi-year accessibility plan sets out the steps we will take to achieve this goal. We recognize that accessibility and inclusiveness are ongoing efforts, and we are committed to continuous improvement in this area.
