Report submitted on < Date >

NOTE: This report represents the views of the general visitor. The Accreditation Board chair's letter reporting the accreditation decisions will be the only official position of the Canadian Engineering Accreditation Board.

This report reflects only those areas to which the general visitor was assigned.

This report contains confidential visit information intended for submission solely as feedback to the Accreditation Board and the provincial and territorial engineering regulators with jurisdiction over the institution being evaluated.

visits@engineerscanada.ca

Where applicable, please comment on the following areas:

1. Overall impressions regarding the visit:

2. Timeliness of visit documentation:

- from the Accreditation Board Secretariat
- from the institution

3. Interactions with Engineers Canada staff (for instance, responsiveness):

4. Interactions with team members (from a team cohesion perspective):

5. Interactions with university staff (for instance, did university staff provide complete documentation?):

6. Were interactions with students valuable? In what manner?

7. Was the input of the general visitor respected and valued?

8. Did the general visitor feel prepared to carry out the assigned tasks?

9. Please identify any improvements that you feel could be made to the visit process, and/or identify processes that worked particularly well:
