05

Continuing Professional Development

OBJECTIVE

Regulators are working towards a national, harmonized concept for Continuing Professional Development (CPD) and agreed to core components.

National CPD Framework

All jurisdictions have these minimum components in their CPD programs.

The National CPD Framework provides a common set of core components and is intended to align existing programs across Canada. No changes to current CPD programs are required. Each jurisdiction may impose additional requirements, if required by law in their jurisdiction.

Thank you

Heidi Yang
