Engineers Canada President Discussion

Key Takeaways

- FEA
 - Update on the advancement (pilot for some recommendations, some decision are coming, every interest holder is involved)
- Governance review
 - Explanation about the objectives, the timeline and the discussion in the afternoon
- Budget
 - Explanation around the fees of 12\$ that will be proposed (lesser than the inflation but the President were questioning the impact of the governance review on the budget and if this considered in the scenario)

Engineers Canada Governance Review

Key Takeaways

The discussion where mainly about the work that would be done in the afternoon and some questions raised during the regulators meeting with Cosgrove.

There was concern express about the fact that is the 3rd time that we are trying to review the governance and is it the right one this time?

There was also discussion about the proper change management in order to increase the success probabilities or readiness prior to going forward with changes in governance.

Roundtable and Discussion

Actions and Summary

Discussion about a new format for the presentation of the president during the AGM, there will be exploration around panel on particular themes agreed between the president in February (a report would still be delivered)

Discussion about the meeting in person for the president (to be continued, information required)

Discussion over the regulator board size and composition comparing how it work for the different regulators

Discussion with CEO of EC

Actions and Summary

- Harmonisation -
 - CPD one of the first thing that they are working on, one of the regulator is working on it for the group
 - 2nd labor mobility and the obligation of some province to answer in 10 days will have to speed the process for all
- Futures of Engineering Accreditation
 - Philip instructed us on the risk around the project and the different interest of the interest holder
- Interprovincial Mobility and Government focus (for example: interprovincial trade agreements, the “big projects” and the build Canada homes, ...)
 - Philip could start to lobby the government after is year as passed
- Actions and Summary: Terminology and Definition of Engineering on the website concerns have been raised to EC and Qualifications Board – All sides are in agreement to fix the issue. In Progress

Next Steps and Chair

Summary

Having the EC Board Chair and EC CEO is valuable

Terri will be the next chair.
