

Chief Executive Officers Group Report to the Board

Lia Daborn

Chief Executive Officer, Engineers Geoscientists New Brunswick

May 27, 2022

Background

- The CEO Group met over two days on May 25 and 26.
- We had representation from all Regulators.

Agenda items of note

The Group received presentations/updates on the following topics:

- Much time was spent discussing current issues in Regulators' respective jurisdictions
- Technicians and technologists and limited licensure issues
- Corporate Registration
- Labour mobility and fair registration
- Accommodation of Ukrainian P.Eng. applicants

Agenda items of note (cont'd)

- Process for development of Engineers Canada Issue Statements and National Position Statements
- Public Affairs Advisory Committee (PAAC) work plan
- Updates on 2022-2024 Engineers Canada Strategic Plan Priorities
- Update on Strategic Engagement Working Groups
- Consultation Program
- Updates on Officials Groups and major projects

National Position Statement on Small Fishing Vessels

- The Group discussed the recent issue statement released by EC on this matter and whether it should be formalised as a National Position Statement.
- It was felt that a National Position Statement on this matter would be warranted.

Meeting with Engineering Deans Canada (EDC)

- The Group heard from EDC with respect to their strong concerns regarding the CEAB 30 by 30 report and consultation process.
- The CEOs indicated they would need time to digest the complex implications of the EDC recommendations.

Questions?

Thank you
